

A black and white line drawing of a landscape. In the foreground, there are large, rounded rocks and some tall grass. A river flows from the left, with ripples on its surface. On the left bank, there are several tall, thin trees with dense, rounded canopies. In the background, there are rolling hills or mountains under a sky with fluffy clouds. The overall style is simple and illustrative, suitable for a coloring page.
$$3 + 9 = 12$$
