

A 15x15 grid of squares, with each square measuring 100x100 pixels. The grid is composed of 15 columns and 15 rows of squares. In the center of the grid, the equation $6 + 5 = 11$ is written in a large, white, outlined font. The equation is positioned such that it spans across several grid squares. The numbers '6' and '5' are each approximately 4 squares wide and 4 squares high. The plus sign '+' is approximately 2 squares wide and 2 squares high. The equals sign '=' is approximately 2 squares wide and 2 squares high. The number '11' is approximately 4 squares wide and 4 squares high.

$$6 + 5 = 11$$
