

A 15x15 grid of squares, with each square measuring 100x100 pixels. The grid is composed of 15 columns and 15 rows of squares. In the center of the grid, the equation $7 + 2 = 9$ is displayed. The numbers and symbols are white with a blue outline. The equation is positioned such that the '7' is in the 4th column, the '+' is in the 5th column, the '2' is in the 6th column, the '=' is in the 7th column, and the '9' is in the 8th column, all within the 8th row.

$$7 + 2 = 9$$
